Notes From The GM

Good News! As promised, we have an opening date for the swimming pool and Northwinds Fitness Center. And, that date is April 30th (barring any unforeseen construction problems ... we don't anticipate any!) We will begin to sell memberships for the pool and fitness center in February, so watch for details in the January newsletter.

In order to offer a more complete service to our Fitness Members, I'd like to announce the appointment of Beth Glessner as our Fitness Director. Recently Beth started teaching the aerobics classes at The Lodge (see related article "Get In Shape"). She is excited about taking on this new challenge. Beth's responsibilities will include: over-seeing the pool operation, weight room, locker rooms, aerobic classes, and the development of a quality fitness center for area residents and hotel guests. If you have any ideas, suggestions or questions, please contact either Beth or myself at The Lodge.

As you may have noticed, the current construction is coming along nicely. The refurbishing of the atrium, replacement of all windows, and addition of heat should all be in place by the time that you receive this newsletter. Stop by and check it out.

Please remember that we will be extremely busy with Christmas parties through-out the month.

Taylor Offers Certified USGTA Golf Lessons

Congratulations to Gary Taylor! Gary is now a certified USTGA Professional Golf Teacher. Gary will be offering individual lessons and golf schools in '94. When the weather breaks, call Gary at the Pro Shop and get some instruction on getting your game ready for the season.

The fall has been kind to us, as the grow-in time for the new course was extended due to the fairly mild fall. Our target date of June 1, 1994 looks very obtainable. Of course, we are still hoping to be ready for play by Memorial Day weekend.

ELECTRIC THERMAL STORAGE HEATERS

CUT ELECTRIC HEATING COSTS

BY 30 TO 40%

NOW — A NEW MODEL FROM FOSTORIA MAY CUT INSTALLATION COSTS 30 TO 40%

Fostoria Industries of Fostoria, Ohio has developed a new type of Electric Thermal Storage heater that eliminates the need for one set of wires from the heater back to the distribution panel. This saves material and can save considerable labor where running the second set of wires would be difficult (sometimes close to impossible).

Fostoria is setting up to do a market test in this area. As part of that, a limited number of units will be produced for sale in this immediate area and at a special introductory price which will be good through the end of November or until the initial planned production is sold. To find out if this new type unit can save you installation dollars, call for a free analysis of your house with an installation and operating cost estimate. Call...

Bridge Club News

Every Wednesday Bridge Club Members meet at Northwinds Lodge for bridge lessons and an evening of fun. Each session begins at 7:00 pm, but many meet beforehand for a sandwich or dinner at 6:00.

Each session begins with a discussion. Preset hands are then bid and played to demonstrate what has just been discussed. Each topic is reviewed at the following two or three sessions for reinforcement.

Bob Dunning, Chairman, is pleased with the results. "The trainees are making great progress and finding it most enjoyable ." He encourages anyone who may be interested to join them. "The lessons are not quite to the point that a newcomer could not start now and catch on." So, come on out. Bob guarantees that you will enjoy it!
