Indian Lake Resort would like to thank all of the Indian Lake and Lake Stonycreek residents for again supporting the Lodge in 2011. This past summer was the Restaurants busiest since the reopening in 2006. Our team of Chefs, Bar Tenders and Wait Staff have made Indian Lake Resort a very popular dining destination. We are now drawing many customers from outside the area and from Flight 93. The weekly free live entertainment on Saturday nights from 9pm to midnight in the smoke free Tomahawk Lounge has also proved to be very successful. Indian Lake proves to be a very unique and challenging place to operate a dining facility. The majority of diners all arrive at approximately the same time after coming off a day on the lake thus overwhelming the kitchen and wait staff. In a continuing effort to alleviate the problem, the kitchen now places priority on orders being placed by customers which have made reservations. By placing a reservation, we know when you are coming and can be prepared. Reservations are not required but are highly recommended.

The Resort's 32 updated guest rooms now feature new Amana Air Conditioning and Heat Pump units. This summer was also the busiest season for the Guest Rooms, as many Indian Lake Residents have discovered the convenience of having their over flow guests stay comfortably close by. Again, reservations should be made as far in advance as possible, as many weekends we are completely full.

This fall we again invite you to watch the Football and Hockey games on our three large screen TV's. You can view our monthly calendar, hours and daily specials on our website listed above or have the calendar automatically emailed to you by adding your email address to our mailing list. Simply email us with your email address.
